Silverline 60 tunable white

The silver line 60 tunable white is a flexible LED that allows mood control due to the dual colour temperature LED's. It is equipped with 3M self-adhesive tape which allows itself for easy placement on almost any water and dust free surface. The silver line 60 is very suitable for cove and signage applications.

Its flexible in its design, where each length is cut able in 66,66mm lengths.

A wide range of aluminium profiles and covers are available.

Features

Tunable White
2400~6000K

Easy installation
Adhesive tape

Design flexibility
Cutable every 66,66mm

Technical specifications

LED		
	Colour temperature:	2400~6000K
	Colour rendering:	CRI > 80
	LED's per meter:	60
	Lumen output:	420 lumen (2400K)
		480 lumen (6000K)

Power		
	Power:	24VDC
	Consumption per meter:	14,4W
	Maximum length:	5 meter on single ended power supply

Miscellaneous		
	Lifespan:	20.000 hour
	IP rating:	IP20
	Length per reel:	5 meter
	Cut length:	66,66mm
	Strip width:	10mm
	Beam angle:	120º

Dimensions

66,66mm

10mm

5000mm

2,2mm

Wiring

Use min 90ºC supply conductors when connecting to the silverline 60 tunable white flexible LED strip.

A cable with 3 conducters is needed for the silverline 60 tunable white flexible LED strip

Only use power supplies which can deliver a constant dc-voltage between 21~24VDC.
