

# **RGB4016 DYNAMIC**

The RGB4016 is a versatile LED module which is the ideal solution for dynamic video display or video matrices. It has an ultra-high visual refresh rate (patented technology) which makes this module extremely suitable for studio applications.

The has a true 16 bit colour depth in order to create finer levels of colour and display better gradient effects.

Another possible feature of the LED line is the low level of bending and curving.

Its special designed LED driver: the AD-UDR1 Dynamic LED driver can be controlled via DMX512 or E:PIX protocols.

#### Features

Dynamic Individual RGB control Vivid Colours RGB

Studio applicationFleultra high refresh rateBer

Flexible Bendable led module

### **Technical specifications**

BCB4018 - O OLI

LED	Colour: Lumen output: Pixel amount:	RGB 121 lumen 16
Power	Power: Consumption: Maximum length:	12~24VDC 6W 8 meter
Miscellaneous	Pixel Pitch: Colour depth: Lifespan: Module length: Cut length: Beam angle: Features:	25mm 16 bit (better gradient effects) 8 bit intensity (optional) 50.000 hour 400mm 100mm 120° Withstands low level of bending and curving
Control	Control interface:	AD-UDR1 Dynamic led driver (DMX512 / E:PIX)

# RGB4016 DYNAMIC

### Dimensions

## Wiring

Use min 90°C supply conductors when connecting to the RGB4016 Dynamic LED module. A cable with 4 conducters is needed for the RGB4016 Dynamic LED module

The connecting cable cant be longer than 2 meters.

Only use power supplies which can deliver a constant dc-voltage between 21  $\sim\!24\text{VDC}.$ 

## Order Code

RGB4016 - RGB4016 Dynamic LED module; 16 RGB Pixels; 24VDC; 6W; 400mm

#### Order Code Accesoires

RGB4016AF - led adapter board dynamic RGB male RGB4016AM - led adapter board dynamic RGB female

## AD-UDR1 Driver connection

In order to connect a RGB4016 Dynamic led module line on to the AD-UDR1 Dynamic LED driver an LED adapter board is needed, as shown below. Please note that the RGB4016 Dynamic LED module are polarity sensitive and cannot have a connecting cable that is longer than 2 meters.
